EXTRASOFT C-200

Liquid Fatty Cationic Softener

EXTRASOFT C-200 is a high quality, liquid cationic softener that imparts excellent softness and surface slickness to cotton and synthetic fabrics. It has excellent resistance to yellowing at high temperatures and may be pad or exhaust applied. It is compatible with resin, catalyst and other finish bath additives.

GENERAL PROPERTIES:

Appearance:	White liquid.
Ionic Nature:	Cationic
pH:	Approx. 5.0 (1 % soln)
Solubility:	Readily soluble in water.

FEATURES:

1. Imparts softness, surface slickness and antistatic properties to both cotton and synthetic goods.
2. Non yellowing to high temperature drying or curing.
3. Exhaust or pad apply.
4. Compatible with a wide range of other finishing agents.

METHOD OF APPLICATION:

Pad: 1-5 % o.w.b. depending on the weight of goods and desired hand.

Exhaust: 1-3 % o.w.g. in final rinse following bleaching or dyeing. Addition of acetic acid to pH of 4.5-5.0 will insure complete exhaustion. Run bath for 15 minutes at 38 °C (100°F).
